Saboia - Vila do Bispo: The ride continues by tracking through postcard landscapes to reach Vila do Bispo, a small town 22 kilometers west of Lagos. It is a pretty village with old typical Algarve houses, grouped around the 16th century church. This "far west" area is still untouched by mass tourism and has beautiful beaches and beautiful countryside. The circuit that takes place in the morning in the mountains and around noon, you will start to smell the sea and the Via Algarviana will end in the Parque Natural do Sudoeste Alentejo and Costa Vicentina, the most unspoiled coast of Europe.
Continue along the coast from Carrapateira, a former fishing village. This corner of the Algarve is remote, isolated, and certainly not visited by tourists who invade the coast. Here; travelers, tourists, surfers, and windsurfers are enchanted by the wonderful sunsets and beautiful beaches. You will overnight in a hotel with comfort equipped with indoor pool. You will have dinner in a typical restaurant in the village

4 - Vila do Bispo - Monchique - 0

Vincent, which is the last branch of the Algarve overlooking the Atlantic Ocean. Starting from the ocean, we start heading inland through the eucalyptus forests to 990 m Monte Foia, an immersion in nature along the banks of the Guadiana River and through the Serra de Monchique, cork production area and typical villages. In the evening you will arrive at Monchique, a hotel facility.
Dinner at a typical city restaurant.

Monchique - Silves - SB Messines: Last leg of our enduro ride, crossing the mountainous region, located inland and including mainly the heart of São Marcos da Serra. Its relief is clearly mountainous, covered mainly by cork oaks and forests, with the lowest population density of the municipality.
