This snowmobile trip between Finland and Norway is not really an expedition for experienced riders. For more than 700 kilometers we will fly through virgin territories never before explored, we will cross the largest lake in Finland, forests, natural parks and frozen tundras.

It is a trip for two groups of 6 adventurers each, the first one from north to south, departing from the Ruuka winter resort in Finland and arriving at Irkimini in North Norruega, right in the Arctic Ocean.

The second group will make the trip in the opposite direction.

90% of the route will be made on tracks with virgin snow, for this we have new, more powerful motorcycles than the usual ones specially prepared for this adventure where we leave nothing to chance.

We will be followed by a third support vehicle that travels by road with our luggage platform for four snowmobiles, two spare bikes and space for two more bikes in case any pilot is not in a position to continue the trip. We will find our luggage directly in our room.
