This program is the best sold in our agency, because with the 10 days of travel within Bolivia you know the best tourist places, museums, parques, towns of colonial history and custom. all this we ride riding on two wheels as are the motocycletas, this is a challenge adventure where you ride in places of jungle and high plateau places on 3,600m.

Next we invite you to read our etinerary.

50 % paved road and 50% dirt road partly on the famous **DEATH ROAD**. Departure is from the city of La Paz 3,600mts.

On this day we go to the village of Coroico 1,750mts. We'll ride over the mountain pass La Cumbre 4,680mts and then take the old dirt road down. Along impressing Andean mountain landscapes the road zigzags between high mountain walls and deep abysm. Before a new paved road was build, this very narrow old one was used by cars, trucks and busses in both directions up and down, which was extremely intimidating. Several crosses mark places of accidents, which used to be very tragic and frequent so this route is also known as "the Death Road". Nowadays, it is a favorite biking route but it also serves for other kind of vehicles. Drivers must go by the left side and who is going down sometimes has to back out to get a wider place to set his car at the cliff so vehicles going up can move close to the hill side. We'll stay at a good hotel.http://www.hotelgloria.com.bo/coroico.php
